(Zaporizhzhya) Ukraine, June 20, 2011 – Intellimedia Inc, a Canadian owned Software Development company, and Zaporizhzhya Institute of Economics and Information Technologies (ZIEIT) have signed a Memorandum of Understanding for an Intellimedia sponsored practicum and bursary program.

Intellimedia is excited to attract qualified students of ZIEIT's first rate information technology program for its programming division located in Zaporizhzhya, Ukraine. Intellimedia is pleased to offer practicum/internship opportunities for ZIEIT students enrolled in the Faculty of Computer Engineering. Additionally, Intellimedia will offer a yearly bursary for one student that ZIEIT will select as per agreed criteria with Intellimedia.

According to Ahmad Jawad, President of Intellimedia, "it was the degree of talent, combined with a strong work ethic and attention to quality that attracted our company to open a division in Zaporizhzhya, Ukraine. We look forward to growing our Ukrainian office through this partnership with ZIEIT".

About Intellimedia Inc.

Intellimedia, an Alberta based software and consulting firm focused on assisting schools to improve operational capabilities through the use of integrated and flexible software solutions. Intellimedia's Dossier Education Management System (EMS) is a web-based suite of applications designed to enable schools and school districts to optimize decision-making and process management. Dossier EMS is fully synced with PowerSchool thus eliminating duplication and redundancy of data. Intellimedia Inc. is a PowerSchool ISV partner.
